

Transforming
professionals into
tomorrow's leaders

PLACEMENT REPORT
2021-2023

RICS

School of Built Environment

AMITY UNIVERSITY

Welcome to India's first-of-its-kind institution of real estate, construction, and infrastructure, which offers specialised education, world-class training, research, and best practice guidance in the industry.

The RICS School of Built Environment endeavours to set new benchmarks in placements every year.

A man in a dark blue suit and red tie stands in a city with skyscrapers. The image is partially obscured by a large, dark purple, curved shape on the left side of the page.

Transforming Professionals Into Future Leaders

Our platform helps students connect with domestic and international firms seeking professionals with integrity and ethics. We work very hard to bridge the gap between skilled students and employers' job requirements.

Placements Show
Signs of Market
Confidence

RICS SBE invited prestigious domestic and international firms to participate in the placement process, resulting in 95% of the batch getting placed.

We owe our success to the unwavering support and backing of more than 1,000 leading organisations in the industry.

RICS SBE has a dedicated training and placement cell for the job orientation of students, because of which our students are successfully placed in leading organisations. The placement department functions as a bridge between the institution, companies, and students. We provide a well-laid-out systematic process for meeting students' career goals and corporate expectations.

Since RICS is a professional body, the industry has whole heartedly supported us through all our placement seasons and continues to do so.

The school has the distinction of being the first and only school in India with RICS and PMI-accredited courses. This is the quickest path to becoming an MRICS, which is a hallmark of professionalism in the sector.

Students are given RICS' international pedigree and global linkages to leverage, which helps them to be accepted as global professionals in terms of opportunities.
